IATDP

The International Association for
Truancy and Dropout Prevention
(IATDP) is an association of educators,
government officials and stakeholders
whose history of truancy and dropout
prevention efforts date back to 1911.

Our mission is to create a partnership
which facilitates the dissemination of
information, emerging practices and
research designed to support learning &
increase high school graduation rates.

Our goal is to improve the efforts of
practitioners to reduce the number of
students that elect to dropout of school
by sharing our common experiences and
intervention strategies.
